DATA POINT

Thank you for making 2015 great!

As the year comes to a close, we would like to take this opportunity to acknowledge and thank many our loyal customers, global sales partners and dedicated DTS staff around the world who have all played a part in making this one of DTS's most successful years yet!

We are grateful in so many ways.

2016 Events @ a Glance

Mark your calendar and plan to visit DTS at one of the many shows scheduled for next year.

R U Interested in DAS & Sensor Training?

We are always asked about training events, especially the popular *DTS Principles of DAS*. This is your chance to let us know if you really are interested in attending a training here in sunny Southern California. Please share your interest by emailing hans.hellsund@dtsweb.com with the subject line "**DTS Training**" and include key topics. We will keep you posted.

Calibrate . . . It's Never Too Late!

Like routine maintenance to keep your vehicle running perfectly, all DTS data recorders and sensors should be serviced annually to ensure data integrity, accuracy and avoid potential loss of critical data. Considering the dynamic and often destructive nature of many tests, it's

important that ALL customers have their DTS equipment serviced on a regular basis.

Only DTS can adjust our DAS and sensors to official factory settings for maximum performance and reliability.

DTS calibration services are a comprehensive check-up that includes:

- Batteries (Back-up batteries are not user serviceable in most DTS products)
- Signal amplitude linearity tested over multiple gain ranges
- System time base and event timing validation
- Anti-alias filter performance validation
- Excitation accuracy and overload protection validation
- Internal calibration factors updated for best accuracy

Did you know A2LA is recognized worldwide? See the complete list of signatories on the ILAC Mutual Recognition Arrangement.

DTS service options include:

- [Standard Calibration or ISO 17025](#) (A2LA accredited)
- [On-Site Service](#) helps keep busy test schedules on track
- [Service Contracts](#) save money, paperwork & time, includes unlimited repairs

Contact customerservice@dtsweb.com for pricing and scheduling details.
