FOR IMMEDIATE RELEASE

DTS Expands Global Sales & Support Offices

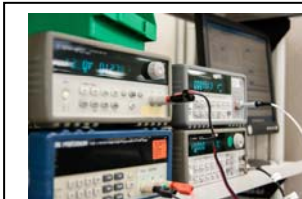

Diversified Technical Systems Announces Opening of Technical Center in France and New Sales Partners in Asia and South Africa

Seal Beach, CA – In its continuing commitment to support customer needs worldwide, Diversified Technical Systems (DTS) has expanded its presence with the opening of a new Technical Center in France and the addition of new sales partners in South Africa, Singapore, and Taiwan. The announcement comes only six months after another expansion when DTS moved their technical center in Novi, Michigan to a larger facility three times its previous size. "The company's steady growth rate has truly been remarkable. Anticipating future needs with a global perspective has been a key part of that success," says Hans Hellsund, DTS Director of Sales & Marketing.

Located in Gennevilliers, the new DTS France Technical Center supports customers throughout Europe.

DTS has named Maugan Robert as European Technical Support Engineer to head up the France Technical Center where he will provide technical assistance, product training and in-house and on-site product calibration of DTS data acquisition systems and sensors to customers throughout Europe. The center is the fifth DTS Technical Center worldwide working with the company's corporate headquarters in Seal Beach, California. Maugan, who holds a master's degree in Electronic Engineering, studied both analog and digital electronics with a focus in RF and optoelectronic systems. "I'm excited to be supporting DTS customers in Europe and around the globe with the cutting-edge technology DTS provides," says Maugan.

DTS France provides technical support as well as in-house and on-site calibration of DTS data acquisition systems and sensors.

Maugan Robert, European Technical Support Engineer at DTS France is responsible for service, technical support and training

DTS France is located in the company's French sales partner offices at Alliantech Sensors Systems and Solutions, 12 rue Traversière, F- 92230 Gennevilliers, France.

The new DTS new sales partners include Advance Instrument, Inc. in Taiwan, ESTEQ in South America and Dewe Solutions in Singapore. Contact information for each of the new partners is listed below.
