FOR IMMEDIATE RELEASE

## DTS Celebrates Grand Opening of North American Technical Center

**Novi, Michigan** - DTS (Diversified Technical Systems headquartered in Seal Beach, Calif.) celebrated the Grand Opening of its new North American Technical Training Center in Novi, Michigan on Oct. 21. The day-long event drew over 100 guests and included several training sessions, user's meeting and evening festivities that not only celebrated the Grand Opening, but also its 25<sup>th</sup> anniversary in business.

The new facility is located just a few miles from the previous office location, as well as the concurrently held Automotive Testing Expo North America where DTS exhibited its data recorders and sensors used worldwide for crash, blast and safety testing in the automotive, military and aerospace industries.

The new DTS center is an official ISO 17025 A2LA Accredited Calibration Laboratory for DTS products.

"We are proud to celebrate our new North American Technical Center and DTS's commitment to growth and supporting customer product and service needs worldwide for the past 25 years," says Steve Pruitt, DTS President/CEO.

The center is located at 25881 Meadowbrook Road, Novi, Michigan.

### About DTS

Founded in 1990 by three crash test engineers, DTS data recorders and sensors are used worldwide in crash, blast and biomechanics testing by top automakers, aerospace and leading research facilities. The U.S. Army named a DTS helmet sensor as one of "The Greatest Inventions." *Inc. Magazine* has named DTS three times as one of the fastest-growing private companies in the U.S. Based in Seal Beach, California DTS has technical centers in North America, Asia-Pacific, and Europe.

Ribbon cutting ceremonies commemorated the opening of the new DTS North American Technical Center in Novi, Michigan and the company's 25<sup>th</sup> anniversary in business. From left: Steve Pruitt, DTS President/CEO; Mike Beckage, DTS CTO; Wayne Wrobel, Novi City Council Member; and Steve Moss, DTS North American Business Manager.

DTS held several special training events on Oct. 21st at the company's new Technical Center in Novi, Michigan. The new DTS center features expanded training rooms and is an official ISO 17025 A2LA Accredited Calibration Laboratory for DTS products and services customer worldwide.

Mike Beckage, DTS CTO & Co-Founder, (left) kicked off the morning with the popular *Principles of Data Acquisition & Sensors* training to a capacity crowd at the new DTS North American Technical Center.

Steve Pruitt, DTS President & Co-Founder, (left) shared an overview of the company's role in advancing safety testing worldwide over the past 25 years. Jenna Miller, DTS Technical Support Engineer, (right) lead a training session *Navigating Integrated Data Acquisition: Headforms, Legforms & ATDs*.
