FOR IMMEDIATE RELEASE

## Diversified Technical Systems, Inc. (DTS) Receives Supplier Award from Toyota

### DTS Recognized for Superior Quality & Technical Services

**Seal Beach, CA (July 2013)** – Diversified Technical Systems, Inc. (DTS), a global supplier of data recorders and sensors for safety crash testing, won the Superior Performance for Technical Services Award at Toyota Motor Engineering & Manufacturing North America, Inc.'s (TEMA) 2013 Indirect Supplier Business Meeting held in Covington, Kentucky. DTS was one of fourteen of TEMA's suppliers receiving its highest performance award for exceeding the company's expectations in several categories.

DTS is proud to be a US-based supplier recognized for its product and technical services that help contribute toward making Toyota a leader in safety. *"Knowing that Toyota relies on DTS data acquisition systems to test safety features for both vehicles and passengers makes us realize how much of an impact our products have worldwide and not just in the test labs,"* said Steve Pruitt, president and co-founder of DTS.

In the United States alone, there are about 50,000 supplier jobs dedicated to Toyota across more than 30 states. Toyota collectively spent approximately \$26 billion on parts, goods and services last year in North America.

About DTS: Founded in 1991, Diversified Technical Systems manufactures data recorders and sensors that are used worldwide in crash, blast and biomechanics testing performed by top automakers, aerospace, the military and leading research facilities. A DTS helmet smart-sensor that records head forces in an effort to improve soldier safety and reduce traumatic brain injuries was named by the U.S. Army as "One of The Greatest Inventions." DTS was also twice recognized by Inc. Magazine as one of the fastest-growing private U.S. companies. Based in Seal Beach, California, DTS has technical centers in Michigan, Australia, Germany & Japan. [www.dtsweb.com](http://www.dtsweb.com)

**DTS North American Business Manager Steve Moss (2nd from R) accepts a Superior Performance Award from Toyota/TEMA executives for exceptional Technical Services.**
