FOR IMMEDIATE RELEASE

Diversified Technical Systems (DTS) Welcomes
Lail Hundertmark and Jerry Lawrence

Southern California technology leader and manufacturer DTS
proudly introduces the latest new hires to its growing team.

Seal Beach, CA (February 2013) – Diversified Technical Systems, Inc. (DTS), a leading manufacturer of data recorders and sensors for safety testing and human injury assessment, welcomes new staff to the growing team.

Lail Hundertmark has joined DTS in the new corporate position of Staff Accountant. With 25 years of accounting and finance experience, Lail has worked for several industrial manufacturing companies. He holds a Bachelor of Science in Business Administration and Accounting from Dakota State University.

Jerry Lawrence is the newest Software Engineer on the team and brings over 17 years of experience in writing both system and application software for a variety of industries. He holds a Bachelor of Science degree in Computer Science from CSU Chico, plus a Masters of Science in Systems Management from USC.

Email sales@dtsweb.com or visit www.dtsweb.com for more information on the full line of DTS products and services.

About DTS: Founded in 1991, DTS designs and manufactures data recorders and sensors that are used worldwide in crash, blast and biomechanics testing performed by top automakers, aerospace, the military and leading research facilities. A DTS helmet sensor that records head forces in an effort to improve soldier safety and reduce traumatic brain injuries was named by the U.S. Army as one of *"The Greatest Inventions."* For a second time, *Inc.* Magazine named DTS one of the fastest-growing private U.S. companies. Based in Seal Beach, California, DTS has technical centers in Michigan, Australia, Germany and Japan.
