FOR IMMEDIATE RELEASE:

DTS Wins GOLD Best of Sensors Expo Award in Data Acquisition

Seal Beach, CA, June 2010 – DTS has been awarded a *Gold* “Best of Sensors Expo” award in the Data Acquisition category. DTS received the award for its innovative TSR shock recorder. The high performance data logger features three internal accelerometers and recording capabilities of up to 20k samples per second per channel. Praised for its small size, rugged packaging and ability to record for up to 24 months on an internal battery, the TSR is ideal for a variety of applications ranging from blast to package testing and unattended monitoring of acceleration including vibration and multi-event impacts.

DTS has been awarded the Sensors Gold “Best of Sensors Expo” award for an unprecedented three years in a row. In 2008 DTS won gold for the SLICE miniature data recorders and in 2009 was awarded gold for the 6DX sensor.

The Sensors “Best of Sensors Expo” awards honored the most exciting new products that were on display at the Sensors Expo & Conference, which took place at the Donald E. Stephens Convention Center in Rosemont, IL. All entries were judged on the basis of potential impact, application, distinctiveness, timeliness, and availability.

The panel of judges included the Sensors magazine’s editorial staff, members of the editorial advisory board, and industry experts including Melanie Martella, executive editor of *Sensors*, Ed Ramsden from Lattice Semiconductor, and Deb Lickness and Bruce Upchurch from John Deere.

“The awards program recognizes cutting-edge solutions in the sensors marketplace,” said Martella. “All of the nominations demonstrated exceptional innovation, integration, and ease-of-use. We believe this year’s winners will be leaders in the sensors marketplace and offer our congratulations to the companies recognized.”

For over 20 years, DTS has been a leading manufacturer of data acquisition recorders and sensors for dynamic, high shock testing. Based in Seal Beach, CA, DTS has global offices in Michigan, Australia, China, Germany and Japan. Visit www.dtsweb.com for more information on the full line of DTS products and services.

Sensors

Sensors is the authority for smart design, applications and networks. *Sensors* provides focused news in the markets where sensor and related technologies are applied as part of a company or organization's business and competitive strategy: Electronics & Computers, Machine Manufacturing, Process Industries, Automotive, Aerospace/Military/Homeland Security, Specialty Markets: Medical Devices, Engineering/Architectural, R+D, Wireless Networking & M2M, and more. For more information visit www.sensorsmag.com.

About Sensors Expo & Conference

Sensors Expo & Conference is the leading sensor event in North America exclusively focusing on sensors and sensor-integrated systems. The conference program is dedicated to exploring the most up-to-date innovations in sensor technology including physical sensors, sensor networks, biosensors, MEMS/nanotechnology, instrumentation & controls, intelligent systems, machine-to-machine communication, wireless sensing and IT technology. For more information visit www.sensorexpo.com.

About Questex Media Group, Inc.

Sensors Expo & Conference and Sensors Magazine are owned and operated by Questex Media Group LLC, a global, diversified business-to-business integrated media and information provider, headquartered in Newton, MA. The company's media properties include over 100 print and digital media publications, 45 conferences, tradeshows and events, as well as a range of research, data and information products. The company's combined operations include more than 400 employees in offices throughout North America, South America, Asia and Europe.
